1. Thank you for calling the Plumbers of Suojanen Enterprises. Our commercial and residential construction division is building our community. You'll find us onsite in most of the bay area residential subdivisions adding to our list of over 50,000 completed homes. We are also involved in erecting new car dealerships, shopping centers, office buildings, and numerous other commercial developments throughout the tri-county area.
2. Enjoy our new sister company, The Pampering Plumber, for all your home and business service and repair needs. The Pampering Plumber is a new concept in plumbing designed to deliver unequalled service with clean, courteous, qualified technicians, and a storefront setting with an atmosphere that is comfortable and relaxing to allow you to enjoy the purchase of all your plumbing needs from the basic drain cleaning to the gold plated butler sink.
3. Consider a new solar hot water heater system for your home or business and enjoy **FREE HOT WATER FROM THE SUN!** It's a great way to reduce your carbon footprint and your utility bills- It's a lot less expensive than you might think! Thank you for holding.
4. Did you know that the energy used for a typical electric water heater releases as much carbon into the atmosphere as a small car over a year? Solar hot water is clean, green, and free. In fact, the system including installation can be free as well. Ask us how to get your system free!
5. How about a solar roof fan to cool your attic space? Did you know that your attic can reach temperatures in excess of 150 degrees? A solar fan reduces this heat build-up which in turn reduces air conditioning costs by as much as 25%. A solar fan also reduces damaging condensation. Work your way towards energy dependence by going solar! Ask about an attractive package deal!
6. Suojanen Enterprises offer some great financing packages to help you on your way to energy independence with the attractive government incentives, in many cases, you can own solar equipment for free! Set up an appointment today for your **FREE** analysis. The only thing you have to lose is a good portion of your utility costs!
